The performance data quoted represents past performance. The investment return and principle value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original investment. Past performance does not guarantee future results, and current performance may be lower or higher than the performance data quoted. Total return figures are net of fees and include reinvestment of all dividends and capital gains. For the fiscal year ended 10/31/07, the New Century Alternative Strategies Portfolio has an expense ratio of 1.06% with an acquired fund expense ratio of 1.15%. The Acquired Fund Expense Ratio reflects the fees and expenses incurred by the New Century Alternative Strategies Portfolio for the fiscal year ended 10/31/07 as a result of its investment in other registered investment companies. These expenses are not incurred directly by shareholders.

Certain hedging techniques, arbitrage strategies, distressed securities, options, long/short selling and leverage employed in the funds the Alternative Strategies invests in will expose the fund to additional volatility and risks.
